Wuthnow, Robert. *After the Baby Boomers : How Twenty- and Thirty-Somethings are Shaping the Future of American Religion*. Princeton NJ : Princeton University Press, 2007. Interpreting new evidence from scores of in-depth interviews and surveys, reveals a generation of younger adults who, unlike the baby boomers that preceded them, are taking their time establishing themselves in careers, getting married, starting families of their own, and settling down-resulting in an estimated six million fewer regular churchgoers. Also examines how the continuing conflicts between religious liberals and conservatives, the influx of Hispanic and Asian immigrants, and the prevalence of alternative spiritual systems have influenced this generation. Offers a tantalizing look at the future of American religion for decades to come.

Examination of the long and often difficult history of the Eastern Catholic Churches and their relationship, often tenuous, with Rome. The fascinating tale of the movement of these Churches from their embattled homelands to America's "separate church and state" poses serious concerns for the languages, cultures, and traditions of these ancient faiths. However, as a result of the growing appreciation of Eastern Christianity after Vatican II, the Eastern Catholic Churches have been experiencing a new Pentecost, which is explored in this second volume of the Pastoral Spirituality Series.

Pope Benedict XVI. Great Teachers. Huntington IN : Our Sunday Visitor Publishing Division, 2011. Discover the greatest teachers of the Faith as Pope Benedict XVI highlights their essential role during a time of scandal and strife in the Church. Focusing specifically on the thirteenth-century founding of the Franciscans by St Francis of Assisi and the Dominicans by St Dominic Guzman, the pop said personal holiness led the two saints to preach-and to help actualize-a return to Gospel poverty, a deeper unity with the Church, and a new movement of evangelization, including within the European universities that were blossoming at the time. Their example continues to be relevant today as we struggle with a culture that "focuses more on having than on being," and look to emulate those holy people who chose to live very simply.

Committee on Laity, Marriage, Family Life, and Youth. Marriage Love and Life in the Divine Plan : Leader's Guide. Washington DC : United States Conference of Catholic Bishops. In November 2009, the bishops approved a pastoral letter entitled Marriage: Love Life and the Divine Plan. The letter brings together the Church's key teachings on marriage as a natural gift, as a sacrament, and as a public commitment between a man and a woman. It also discusses several contemporary challenges to marriage and how the Church addresses those challenges. This guide was developed as a companion piece to help those who are married, or engaged to break open the text of the pastoral letter, reflect more deeply on seven key themes represented in the letter, and relate their reflection to lived experience.

Our Parish Renewed : Parish Renewal Plans.
www.PastoralPlanning.com, 2010. Developing a parish level retreat program has a profound and dramatic effect on the life of the whole community. First, those making the retreat really do experience a renewed life in Christ. Second, parish leaders and staff people are confronted constantly by this core mission: helping folks meet and know Christ. Third, since the first ones we recruit for these retreats are the parish leaders themselves, the tone of the parish shifts gears. This spirituality drives evangelization, outreach, pastoral care for the sick and imprisoned, stewardship, work for justice in the neighborhoods, and catechesis.

- C 302.14 Kimball, Don. Power & Presence : A Theology of Relationships. New York NY : Harper and Row Publishers, 1987. Fr Don Kimball, a seasoned youth minister, has sifted through his training and experience to outline a theology of relationships for survival in the front lines of today's Church. He explores the cultural shift from assuming the existence of basic communities (family, parish, school, neighborhood) to creating basic communities. He asserts that the minister's first task is to do relational ministry-to be with, accept, and love people as God sees and loves them. He points out that the arena of relationships is where God happens to all of us and where the best ministry occurs. He has developed what has become known as "the wedge model" for use in ministry. The model is an attempt to present graphically the dimensions of evangelization, catechesis, Christian service, and peer ministry as they involve the whole Church in its work of building community, proclaiming the Word, and providing service.

In an Initiation Model the parish itself is the structure and the people are the witnessing faith-sharers who center on the Eucharist and are committed to a deepening relationship with Christ. This approach invites parish youth into full participation in a parish life that centers on the Eucharist. This is a wonderful and indispensable resource for all youth ministers, parish leaders, and pastoral teams.

Committee on Evangelization National Conference of Catholic Bishops. A Time to Listen...A Time to Heal : A Resource Directory for Reaching out to Inactive Catholics. Washington DC : United State Catholic Conference, 1999. As a community of faith, we want to welcome these people to become alive in the Good News of Jesus, to make their lives more fully a part of the ongoing story of salvation and to let Christ touch, heal, and reconcile them through the Holy Spirit. We must bring enthusiasm and old fashioned zeal for our faith to the effort of evangelization of inactive and alienated Catholics. The directory is divided into four parts: 1) three articles on the evangelization of inactive Catholics, 2) parish, diocesan, and national models presenting twelve diverse approaches for reaching out to inactive Catholics, 3) five faith-sharing guides, which can be used for small group reflection on the gospel stories of reconciliation during Lent and at other times of the year, and 4) a bibliography of resources.

Nearly all English translations of the Bible during the last third of the twentieth century have changed the wording of the sixth commandment from "kill" to "murder." The Hebrew word that appears in the commandment has a broader semantic range than "murder." Wilma Ann Bailey discusses why the Protestant and Jewish traditions changed the wording and why the Roman Catholic tradition did not. She also examines the impact the wording will have in the future for people who believe that there is no general prohibition against killing in the Hebrew Bible and why questions of killing that are broader than murder-death penalty and just war- are no longer part of the discussion of this commandment.
