

PROGRAM BACKGROUND

Through research and education, Thomas W. Hilgers, MD, developed the **Creighton Model FertilityCare System** and the new women's health science of **NaProTechnology**. Dr. Hilgers is the founder and director of the Pope Paul VI Institute for the Study of Human Reproduction and clinical professor in the Department of Obstetrics and Gynecology, Creighton University Medical Center. The Pope Paul VI Institute, founded in 1985, is internationally recognized for its outstanding achievements in the field of natural fertility regulation and reproductive medicine .

Catholic Diocese of Wichita FertilityCare Services is a part of the Diocesan Natural Family Planning Program and has a long-standing tradition of excellence in teaching. Students who train as FertilityCare Professionals attend the Education Program to learn to assist couples and women seeking a better understanding of their own fertility and to advocate for their gynecological health.

Continued Nursing Education

Efforts are underway to provide Continued Nursing Education Credit for the entire course.

Faculty members do not financially benefit.

Help couples discover

What every couple needs to know, and what every woman has a right to know.

*The **Creighton Model FertilityCare System** is highly effective, both to achieve and to postpone pregnancy and offers hope for couples who are experiencing infertility to achieve their dream of pregnancy, in keeping with the teachings of the Catholic Church, without artificial reproductive technologies.*

The Creighton Model FertilityCare System provides comprehensive, professional services through individual follow-ups, standardized teaching tools and ongoing research. With its case management approach, the Creighton Model is a medically standardized Ovulation Method. *It is the only education program in this field that meets the educational demands of a newly emerging allied health profession.*

FertilityCare™ Services Diocese of Wichita Practitioner Education Program

Education Phase I: November 4-11, 2017

Education Phase II: May 7-12, 2018

*Become a FertilityCare Practitioner
and change the world!*

PROGRAM OVERVIEW

The **FertilityCare™ Services Diocese of Wichita Practitioner Education Program**

is a 13-month program that will prepare students to:

- * Help couples understand their gifts of sexuality and fertility.
- * Teach women and couples to navigate their fertility over their procreative lifetime.
- * Provide comprehensive, professional and individualized family planning services.
- * Assist infertile couples with achieving a pregnancy in a way that is natural and cooperative.
- * Work in an allied health profession dedicated to ongoing research and development.

Course Structure

Only faculty certified and approved present the course in **two education phases** and **two supervised practicum**. Students also complete an onsite visit with their supervisor and take a final certificate examination.

Education Phase I (EPI)

November 4-11, 2017

Wichita, KS (The Spiritual Life Center)

EPI is an eight-day immersion course focused on basic teaching skills of the Creighton Model **FertilityCare™** System (CrMS). Topics include anatomy, physiology, contraception and NFP methods, chart reading and correcting, use of standardized tools, system instructions and techniques of follow up.

Supervised Practicum I (SPI)

November 2017 – May 2018

Practitioner's home location

During SPI, students teach a minimum of six clients in their home location. Students work under the direction of a long-distance supervisor to develop basic teaching skills in the CrMS.

Education Phase II (EPII)

May 7-12, 2018

Wichita, KS (The Spiritual Life Center)

EPII is a six-day immersion course focused on advanced teaching skills of the CrMS. Topics include infertility, NaProTechnology, unusual bleeding, continuous mucus, pregnancies, advanced behavior issues and a client case review.

Supervised Practicum II (SPII)

May 2018 to November 2018

Practitioner's home location

During SPII, students teach a minimum of 12 additional clients (for 18 clients during the 13-month program) in their home location. Students work under the direction of a supervisor to refine basic skills and develop advanced teaching skills in the CrMS.

On-Site Visit (OSV)

July 1– September 30, 2018

Practitioner's home location

During the On-Site Visit (OSV), the supervisor travels to the student's home location for two days to evaluate the student's teaching skills and conduct a client case review.

Final Certificate Exam

November 2018

In order to become an independent **FertilityCare™ Practitioner**, students take a final certificate examination upon completion of all program requirements.

Accreditation and Affiliation

The **FertilityCare™ Services Diocese of Wichita Practitioner Education Program**, accredited by the American Academy of **FertilityCare™** Professionals (AAFCP), and provides students with necessary education for certification from the AAFCP.

Application Deadline and Qualifications

Please contact the Program Director to apply to the Education Program.
The application deadline is September 29, 2017 Applications received after this date will incur a \$150 late fee.

The **FertilityCare™ Services Diocese of Wichita Practitioner Education Program** welcomes applications from individuals with a strong motivation and commitment to exceptional **FertilityCare™ Services**. Class size is limited and early submission of an application will allow adequate study time of the advance books and materials.

The **FertilityCare™ Services Diocese of Wichita Practitioner Education Program** cannot accept applications after **October 15, 2017.**

Prospective Practitioners must meet one of the following criteria:

- Registered Nurse with current license
- Individual with a BA or BS degree
- Associate degree/diploma, such as: Licensed Practical Nurse; Human Services Practitioner or the equivalent of two years of college study

Further eligibility criteria requires that the applicant does not prescribe or refer for contraceptives, does not perform or refer for sterilization or abortion, practices (uses) natural family planning or, if single and celibate, monitors their natural fertility and is a philosophical acceptor of natural family planning.
